EXECUTIVE SUMMARY

SOURCE DESCRIPTION:

The Kuttawa Plastics is a manufacturing plant located in Kuttawa Kentucky, which produces plastic OEM parts for automobile industry. The parts are molded from ABS, Nylon, Polypropylene, Acrylic and Polycarbonate plastics. The source has 15 Emblem spray machines, two (2) back coat spray booths, Four (4) acrylic injection molding machines, and one bake oven to dry parts.

On June 15, 2001, the source submitted a Title V permit application.

On March 31, 2003, the source submitted an application for a name change (from Diversified Decorative Plastics, LLC to Kuttawa Plastics).

On August 17, 2005 the source submitted an application for a conditional major permit due to the removal of some emission points. Previously, source had coverage under 401KAR 50:031 which is now 401 KAR 52:080.

The source requested permit limits of less than 30.0 tons per year of volatile organic compounds (VOC), 3.0 tons per year of individual hazardous air pollutants (HAP), and 7.5 tons per year of combined HAPs.

PUBLIC, AFFECTED STATE, AND U.S. EPA REVIEW:

The U.S. EPA was notified of the issuance of the draft permit on March 06, 2006 via e-mail. Affected states (Tennessee and Illinois) were notified of the issuance of the draft permit on March 13, 2006 via e-mail. On March 01, 2006, the public notice on availability of the draft permit and supporting material for comments by persons affected by the plant was published in The Herald Ledger in Eddyville, Kentucky. The public comment period expired 30 days from the date of publication. No comments were received during this period. The permit is now being issued final.
